Just a reminder of how lucky we are in Cambria to have our own ambulance/EMT service. Last week they, literally, saved my husband's life by their quick arrival and care. I, for one, am all in favor of improving/building their facility so that we can continue receiving their service.

Louise Mazerov you are right we all need to support them. They have helped my 96yr. Mom on several occasions.

AGREE!! BUT, that does not mean we property owners deserve ANOTHER assessment from the CCHD on our tax rolls. ...

We can support building improvements while still questioning the price point.
